## OBJECTIVE

---

Seeking a web developer/App developer(front end) role in an industry with a professional working environment,this provides me an opportunity to utilise my skills and abilities and enriches my competences,thus fulfilling the vision of the organisation.

## SUMMARY

---

I am a highly motivated and creative front-end developer with a passion for crafting user-friendly and visually appealing web experiences. With 2.2 years of experience in the field, I have honed my skills in HTML, CSS, JavaScript, and a variety of modern front- end frameworks like React.

In addition to my technical skills, I am a lifelong learner who stays updated with the latest trends and best practices in front-end development. I am dedicated to optimizing performance, accessibility, and SEO to create web applications that deliver outstanding user experiences

## PROJECTS

---

### 1) BloodCellsKart Phlebotomist (🔗 [Click here](#))

As any patient books an appointment for collecting samples as per the timings convenient to them. When this is triggered, our qualified “PHLEBOTOMIST” will visit at the patient’s Home/Office/Registered address and collect the samples required and deliver to the Diagnostic Centre.

**Skills** Javascript, React Native, Hooks, Redux Toolkit, Rtq query (API calls)

### 2) BloodCellsKart Customer (🔗 [Click here](#))
